

SPRING 2019

SUSTAINABLE FUTURES SPEAKER SERIES

Nick Reo

Love and accountability in Indigenous environmental research

Thursday, May 2

5:30 - 7:00 pm in Founders Hall 118

Nicholas J. Reo is a citizen of the Sault Ste. Marie Tribe of Chippewa Indians and an Associate Professor of Native American and Environmental Studies at Dartmouth College, where he studies Indigenous knowledge and ecological stewardship on Indigenous lands. Reo blends ecological, anthropological and Indigenous methodologies in his work, often via tribal community-university partnerships.

In this talk, he will explore research ethics and the concept of "relational accountability" in Indigenous environmental studies, sharing both his personal experiences and his perspective as an Anishnaabe scholar.

The Sustainable Futures Speaker Series is sponsored by the Schatz Energy Research Center, the Environment & Community graduate program, and the College of Arts, Humanities & Social Sciences at Humboldt State University.

For details on upcoming events or to request accessibility accommodations, visit schatzcenter.org/speakers or call (707) 826-4345.
